GREAT

WEB DEVELOPMENT

TASK LIST

In web development, you learn how to build websites and web apps. This includes HTML, CSS, JavaScript, frameworks such as React or Angular, and server-side scripting.

TASK 1

Personal Portfolio Website

Create a personal portfolio showcasing your skills, projects, and resume. Use HTML for structure, CSS for styling, and add a touch of JavaScript for interactivity.

TASK 2

Expense Tracker

Create an expense tracker using HTML, CSS, and JavaScript. Implement features for adding, editing, and deleting expenses. Integrate local storage to save user data.

TASK 3

Social Media Dashboard

Create a dashboard that aggregates content from various social media platforms. Users can log in, connect their accounts, and view their feeds in one place.

TASK 4

ChatGPT Integration

Integrate ChatGPT into a web application to create a conversational interface. Users can interact with the chatbot for information, assistance, or even entertainment. Consider using WebSocket for real-time communication.

SUBMISSION DETAILS

You will have to provided task submission in 15 days during your internship period

It's essential for each intern to complete any three in the assigned tasks. If someone completes only two or one tasks, their internship may be considered incomplete or certificate will not be provided, So Please make sure to fulfill all three tasks assigned to you and submit in Submission form to ensure a successful Internship.
